

The Flower Team and the PCC require that all flower arrangements in St Martin's Church minimise damage to the environment. In particular:

- Floral foam (sometimes known as oasis) uses microplastics and is currently non-recyclable. Therefore we follow the Royal Horticultural Society's guidance (<https://www.rhs.org.uk/about-us/what-we-do/policies/shows-sustainability>) and do not use floral foam in St Martin's Church.
- Single-use plastic (e.g. plastic tape) is also not used.
